

Personal data

Full name Mikhail Orekhov
Address Florian-Geyer Str. 9, 97421 Schweinfurt, Germany
Telephone +49 172 5327961
E-mail m.v.orekhov@gmail.com
LinkedIn www.linkedin.com/in/mikhail-orekhov-doxy

GitHub <https://github.com/Gw1n>

Date of birth June 21, 2003, Moscow, Russia

Education

October 1, 2024 – present Robotics (Bachelor of Engineering),
Expected ending: Technische Hochschule Würzburg-Schweinfurt (THWS), Germany
28.02.2028
01.09.2021 – 15.04.2025 High-tech plasma and energy installations (unfinished),
Bauman Moscow State Technical University (MSTU), Russia
01.09.2010 – 30.06.2021 Secondary general education,
State Budgetary Educational Institution School No. 444

Practical experience

Personal projects: Created and deployed a web application (Next.js/Django) in Yandex Cloud to showcase my skills on my personal website
Described and automated cloud infrastructure deployment using Ansible and Terraform to scale web applications
Containerized applications using Docker and Docker Compose
Set up a local artifact repository using Artifactory

Educational projects: Developed an interactive image analysis system using Python, OpenCV, and Arduino to explore the possibilities of transferring information between platforms
The team implemented low-level programming of a mobile robot in C++ (at the register level), and as part of the project, they programmed the robot's movements in space
Conducted a motion simulation in MatLab Robotics System Toolbox

Skills

DevOps & Cloud Terraform, Ansible, Docker, Docker Compose, Artifactory, AWS, Yandex Cloud
Robotics MatLab Robotics System Toolbox, C++ (OOP, STL), Arduino, soldering

Programming	Python (OOP, Django, NumPy, Pandas, OpenCV)
Web development	Next.js, TailwindCSS
OS	Linux (Ubuntu, CentOS), Windows (10/11)
Languages	English (C1), German (A2)
Other	Microsoft Office, Git, Autodesk Inventor
